

**YCAN Climate Solutions Webinar Series – Session 1**

***“The Importance of Soil Health in a Changing World”***

with special guest Sue Bestow, Office of the National Soil Advocate

*Yarra Climate Action Now* invites community members to a free webinar about the significant opportunities presented by improving soil health. Drawing down CO<sub>2</sub> from the atmosphere, increasing stable soil carbon and sustaining the world’s food production system for a growing population.

**When: Wednesday 20th May @ 7pm**

The webinar will run for approximately an hour, with Q&A at the end

**Venue: Online (on your couch?)**

Closer to the date you will receive a secure Zoom link to access the webinar

**Register now at: <https://www.eventbrite.com/e/ycan-climate-solutions-webinar-series-soil-health-in-a-changing-world-tickets-104616532866>**
